

SUNTREAMO ESTATES

Project Clarification Statement

SUNTREAMO ESTATES is a special project initiated by GRACE SOCIETY a Benevolent Organisation of Noble Beings with Pure Hearts devoted to the Goodwill of Humanitarian and Environmental Projects that Create a **New Earth Paradigm of Peace and Prosperity.**

WRITTEN AND APPROVED BY:

Russell Paul Arthur

Overseer for GRACE SOCIETY.

Grace Society does formerly announce our Goodwill and Intent to create new ecological havens known as the SUNTREAMO ESTATES.

SUNTREAMO ESTATES are to be a Nationwide network of Ecosystems that thrive on the principles of Permaculture. We are regenerating and replenishing the Forestry, Rivers, Lakes, Ponds, Flowers, Plants, and Wildlife of Earth to restore the Earth with balanced and Harmonious Lands, Air, and Waters.

Each SUNTREAMO ESTATE will celebrate the fertility and diversity of Nature. These beautiful Fields of Dreams with Wilderness Habitats, Fragrant Forests, Therapeutic Rockeries, Kitchen Gardens, and Recreation Meadows. Where the Living Beings of Earth can enjoy, relax, and thrive in the wondrous glory Of Nature

Now we outline below some key Aims, Functions, and Benefits of the SUNTREAMO ESTATES.

We are Creating Self-Sufficient Ecosystems

Each SUNTREAMO ESTATE is designed to catch, store, and recycle the Energies of Solar, Wind, and Rain. Where a Permaculture Landscape replenishes itself in a self-sufficient way. Where waste and compost is recycled as fertiliser for new crops. Where enriched soils and evergreen foliage will flourish and absorb a high carbon intake. Where the integration of operational systems and technology will maximise productivity, minimise waste, and promote resilience and proficiency.

Eradicating Food Poverty with Food Abundance

SUNTREAMO ESTATES will transform how we Grow, Supply, and Consume foods. Our Permaculture Landscapes will generate an abundant yield of the nutrient-rich and Fresh Organic Vegetables, Fruits, and Herbs. So, we can heal ourselves with optimal nutrition and enjoy much healthier and joyful Life's of vitality. We are supplying free produce to the Local People of communities to solve food poverty and food Insecurity.

Stimulating the Local Economies

By supplying free fresh produce to the People of Local Communities we will ease the “cost of living” expenses. Where family finances can be reallocated or invested back into the local economy through the purchase of goods and services. By supplying free produce to the Local Food Industry the retail prices shall be reduced and this will attract more custom.

Operate on the Basis of Mutual Benefit

Those who depend on the Natural resources of the Land should be the prime beneficiaries of those natural resources. Therefore each SUNTREAMO ESTATE will provide a mutual benefit arrangement with Locals that protect and honours their inherent rights.

Furthermore the project is a collaboration of likeminded and enthusiastic people from ecology experts, nature lovers, environmentalists, humanitarians, food growers, to producers and distributors. Through the good deeds of Volunteerism, Contribution, and Investment, we come together with our Shared Knowledge, Expertise and Skills to do the greatest good for the greater each and greater whole.

Creating True Ecological Economies

We are restoring value back to the principal of natural resources. Where the principal of the natural resource is more valuable than its derivative. The natural resources will be appreciated and accounted for as a Capital Value. The Capital Value is a permaculture system that yields the annual value of raw materials and foods, and thus will be treated as a commonwealth of local communities.

The Capital Value of the natural resources will be commoditised and converted into a spendable unit of Digital Currency - a Community-based digital currency that facilitates the creation and exchange of goods and services.

We also provide investment opportunities linked to the growth, integrity, and sustainability of the Natural resources, where financial wealth is linked to the welfare of ecology.

With all of the aims and objectives stated above we are reconnecting the Living Beings of Earth back to Nature. Through educational workshops we are teaching people the importance and benefits of Permaculture and optimal nutrition. We will teach people that Earth Care equals People Care. In doing so we shall generate awareness, interest, and participation in the ecological construction of each SUNTREAMO ESTATE.

The Grace Society hereby asserts, that we recognise ourselves as the Responsible Stewards of this Wondrous Earth. We hereby declare, it is in our best Interests to Rehabilitate, Regenerate and Replenish entire Ecosystems so they endure and provide sustenance for generations to come.

To all of Noble Beings that have examined your own conscience and the innermost depths of your soul – if you feel a Heartfelt calling that resonates with our project we extend to you an open invitation to join the Grace Society and become part of a world-class solution.

This project is our Divine Mission and therefore it is done.

**With the Official Seal of Grace Society we do
Sanction the Grace Media Project into Life.**
